

ANIMO

it's all about
jugs

Animo equipment for
jugs of fresh coffee
in no time at all

Animo[®]
Coffee Convenience

COFFEE ANYONE?

*With only the touch of a finger,
the M-line coffee brewer is activated.
Somewhere in the stainless steel housing,
water is heated up to the exact
right temperature.*

*Once it starts to pour and is sent through the
ground coffee beans, the magic happens.*

The smell of fresh coffee is released.

The irresistible aroma takes over the room...

Animo Coffee makers with jugs

Wherever people get together, one of the first questions asked is “Coffee anyone?” A freshly brewed jug of coffee is part of how things should be. Starting off a productive day of work. After the completion of a job done together. During meetings and presentations. At the athletics club or in the arts centre. During... oh, you know best!

Coffee makers with jugs

Animo has developed and produced coffee makers for over 60 years. In this brochure, we highlight coffee brewers with jugs. Professional equipment that allows you to prepare the perfect cup of fresh filter coffee in no time. Or, if the situation calls for it: up to 288 perfect cups per hour. Animo coffee makers with jugs make everyone the perfect host. Serving and maintaining our brewing equipment is just as logical as it is easy.

Everything is possible

Do you prefer large or small jugs? Glass jugs or thermos jugs? Do you want a machine with a water connection or with manual filling? With Animo, almost everything is possible. Several products even come in various colours to choose from. Do you prefer stainless steel combined with sheer black or playful blue? The wishes of the modern coffee lover are our starting point for a high-quality selection.

Animo[®]
Coffee Convenience

Animo makes hospitality easy

Animo equipment is very simple to operate. Smart options lead to a hassle-free, tasty result. This makes it fun for you to be the host.

- Jug detector: the brewing process starts and stops automatically when the jug is taken away or put back at its place.
- Leak stop option: prevents the filter from dripping.
- Coffee-ready signal: an audio alert indicates when the coffee is ready to pour.
- Touch control for optimal user convenience
- Dry-boil protection that can be reset externally.

- The semi-automatic machines are equipped with a manual filling point on the front. This enables you to fill the machines easily
- Automatic machines are equipped with a water connection
- The water reservoir can hold 2.7 litres

- A jug detector starts and stops the brewing process.
- The leak stop option closes the filter basket, preventing dripping after the jug has been removed.
- The machine gives an audio alert when the coffee is ready.

- M-Line equipment is also available with a hot water tap for making tea, hot chocolate, soup and more

- The convenient touch control buttons at the top of the machine ensure ease of operation.
- The number of cups of coffee can be pre-set in our automatic machines by using the touch control buttons.
- Descale indicator
- Pre-wet brew possible

Animo M-line

M-line coffee makers with glass or thermos jugs

The Animo M-line is a very complete serie of brewing equipment, based on a much-praised contemporary design. There is an M-line for every kitchen, breakfast room, bar or canteen. For specific details on each model: see the line-up on this page.

Coffee makers with glass jugs

M100

Coffee maker with manual filling. Supplied with glass jugs. Available in black and blue.

M200

Coffee maker with water connection. Supplied with glass jugs.

M200W

Coffee maker with water connection and hot water tap. Supplied with glass jugs.

M102/202

Double coffee maker, available with manual filling or water connection. Supplied with glass jugs.

M202W

Double coffee maker with water connection and hot water tap. Supplied with glass jugs.

M21/M22

Self-regulating hot plates, single or double.

M100

Animo Excelso

Excelso: Pure Functionality

The Excelso coffee maker gives you the opportunity to make a full jug of freshly brewed filter coffee in no time. The machine is made with high quality stainless steel. Water is filled manually. And just like the M-line brewers, these machines are equipped with the most up-to-date functions. What do you think of:

- Self-regulating hot plates
- Hot plates that can be used separately
- Dry-boil protection

Excelso T

The Excelso T maker is designed to brew coffee directly into a thermos jug. The 2 litre stainless steel double-walled thermos jug is a standard accessory. Of course, any additional thermos jugs can be purchased separately.

Excelso Tp

The Excelso TP is especially suitable for the thermos jug with pump.

Suitable for universal use

The Excelso range is available in three universal models. Since we have left out special features like jug detection, descale indication, pre-wet brew, etc. we are able to offer a greater value for this product. In combination with the low maintenance costs and its long life-span, this makes the Excelso an investment you will not regret.

Excelso

Animo Aromatic B-series

Specifically for hard water areas

Characteristic of the Aromatic B-series coffee machines is their ingenious open-boiler system. This makes the brewers less susceptible to scale deposit and makes descaling easier. This is a perfect solution in areas with hard, calcareous water. It not only enhances the life-span of your machine, but also the coffee aroma.

- Hot plates can be used separately
- Dry-boil protection is resettable externally

Aromatic B 100

A compact stainless steel brewer with two glass jugs. You can make a second jug of coffee while the first one is kept warm and flavourful on the second hot plate. The water is filled up manually.

Aromatic TVB 100

The TVB 100 brewer is designed to brew coffee directly into a thermos jug. This way, the temperature and aroma are better maintained. The coffee maker is adjustable to any height, so it is very suitable for all common thermos jugs sizes.

ANIMO ANYWISE

Animo equipment is a wise investment in every sense. The stainless steel housing is not only extremely durable, but also entirely recyclable. All of the other components are also made of reliable materials and have a long life-span. Moreover, Animo pays attention to energy use. The double-walled thermos jugs are extremely heat insulated. All of the energy ends up in a nice, warm cup of coffee. And that once again gives you new energy!

Animo Thermos Jugs

Warmly recommended: Animo Thermos jugs

A tough work meeting ahead? Activities on location? Guests trickling in? A proper thermos jug prepares you for any situation. Animo thermos jugs are perfect for coffee and other hot drinks. But did you know they can also keep your refrigerated drinks cool very well? Each model is stylish, durable, and easy to clean!

Thermos container

The stainless steel container has a capacity of 2.4 litres and is equipped with a no-drip tap, gauge glass and brew through lid with blender. The blender ensures an optimal extraction in the container

Thermos jug with pump

A delicious warm cup of coffee is dispensed with just a touch of the lever pump. No lifting is necessary, and no mess all over the place. Available in 2.1 litre with stainless steel or glass inner lining. Equipped with blender for optimal extraction in the jug.

Thermos dispensers

Solid, classic shape. These stainless steel thermos jugs are dishwasher safe. Available in 1, 1.5, 1.85 and 2 litre models.

Jug with filling lid

There is nothing better than this stainless steel jug with filling lid to quickly serve fresh coffee! Its 1.8 litre volume is sufficient for 15 cups.

Animo Options & Accessories

An inviting serving table

Every coffee drinker has his/her preferences. That is why there are often loose sugar packets, coffee stirrers and coffee cream on the table. Sometimes, tea bags in various flavours are added as well. Animo helps you to keep your serving table clean, well-organized, and inviting.

Thermos jug buffet

Thermos jug buffet

Stylish and practical presentation of hot drinks for serving table arrangements. Suitable for both types of the thermos jugs with pump.

Ingredient box

A beautiful matching stainless steel ingredient box with three compartments. For the storage of sugar, milk and spoons (for example).

Ingredient box

Cup heater KKWn

Carefully brewed coffee deserves to be poured in a pre-heated cup. A cup heater makes sure that temperature and flavour are even better preserved. Moreover, cups and saucers are always kept clean and dry, together.

Cup heater KKWn

Naturally, Animo also offers the following accessories:

Filter paper

Basket filter paper 90/250, suitable for all Animo coffee brewers with jugs.

Filter paper

Descaling agent

Specifically for Animo coffee brewer equipment.

Coffee deposit remover

Perfect for cleaning thermos jugs and places that are difficult to reach.

Descaling agent and coffee deposit remover
